

How to commit Jasper report changes to GitHub Repository using the Egit Plug-in for Eclipse

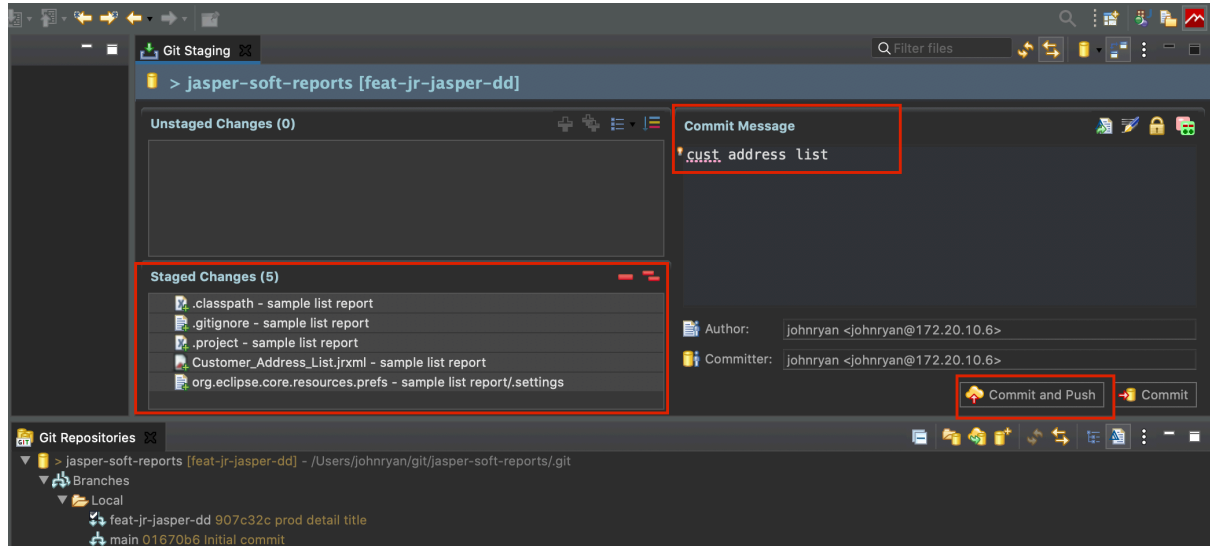

Step 1: Open “window” drop down in eclipse pane and select “Show View” , open Git folder and select “Git Staging” and press open.

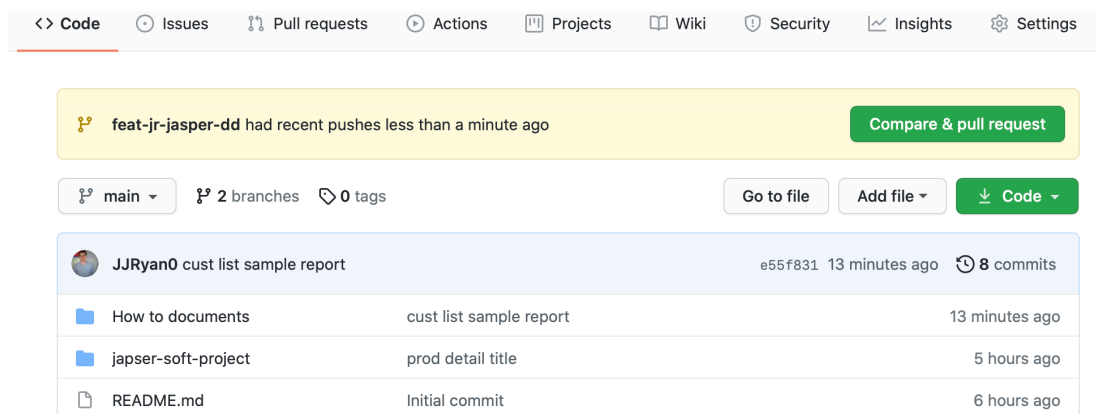

Step 2: Move un-staged changes to the staged changes section of Git Staging view.

Step 3: Write a commit message and press Commit and push to push change to GitHub server from local feature branch.

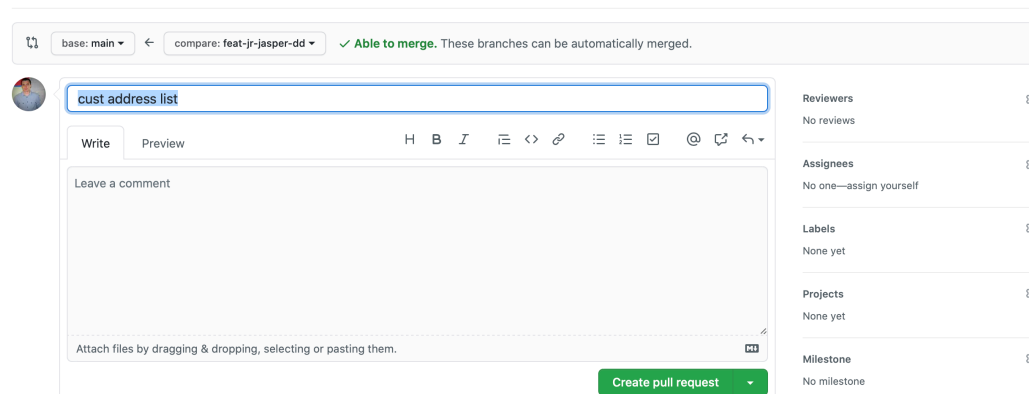

Step 4: Navigate to GitHub browser and press Compare & pull request.

Step 5: Create a pull request.

Open a pull request

Create a new pull request by comparing changes across two branches. If you need to, you can also [compare across forks](#).

Step 6: Merge the pull request to main branch
